

Environmental Policy Statement

The CIET Environmental Policy has been compiled to provide a commitment to the Environmental Management System operated by the company.

CIET main processes are **the construction & refurbishment of transmission and distribution power networks**. CIET is committed to the continuous prevention of pollution and to the continual improvement in environmental management and performance.

We are also committed to maintain acceptance of all our operations and activities by our clients, employees and local community.

We will achieve this by the implementation of an Environmental Management System which will include the following:

- Assess the environmental sensitivity of processes and the impact of operations on the local, regional and global environments;
- Employing best available and economic techniques for the measurement and control of emissions and wastes and for the optimal use of resource; (This will be achieved through continuous improvement measures)
- Compliance with all applicable environmental legislation and consents;
- Training employees to ensure that they are fully competent to control the activities for which they are responsible;
- Work with suppliers, customers and contractors to promote awareness of the importance of environmental issues and the need to work in an environmentally responsible manner
- Initiating and supporting educational programmes which will enhance environmental understanding of our company operations;
- Making information on our environmental performance publicly available, anticipating and responding to concerns regarding our activities, and encouraging dialogue with interested parties;
- Operate in a planned and responsible manner, aiming to prevent pollution through spills and accidental discharges: the company will maintain emergency plans.
- The company will report on environmental performance in annual reports and to all company employees on an annual basis. i.e. Reduction on the company carbon footprint
- Objectives and targets will be reviewed at the environmental management review meeting.

Signed on Behalf of CIET

Managing Director
